

I have an XM Satellite Radio in my automobile. I benefit from listening , especially when I am traveling, to keep up to date on the traffic and weather. As a senior citizen who travels alone, it certainly makes me feel more comfortable and safer as I travel.

I have already been forced to pay state tax on the XM radio, and do not feel that it should be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and support SM's ability to provide the kind of programming that I demand and deserve.

Sincerely,

Dorothy Miller
